

A BETTER, SAFER TIME CLOCK FOR THE "NEW" OFFICE

Protect your employees & office with...

SMART AC1/TD

TOUCHLESS TEMPERATURE READING BIOMETRIC TIME CLOCK

The Smart AC1/TD, is a visible light facial recognition access control time clock that re-invents and ensures the safety of your office and staff. This time clock is embedded with an innovative Face-with-Mask and fever detection reader that will accurately measure body temperature - even with a face mask on.

The built-in camera has an extra wide angle for recognition of up to 2 feet and making this device one of the fastest, touchless verification and time tracking devices available. It significantly reduces risk for potential cross-contamination within your office and workplace premises. *It's what every office needs - today!*

FACIAL RECOGNITION

Latest visible light facial recognition technology

TOUCHLESS VERIFICATION

No contact verification limits germ spread and keeps your office safer.

HIGH CAPACITY

Store up to 6,000 faces, 3,000 palms and 200,000 transaction logs

SCAN BODY TEMPERATURE

Deny ability to punch in if a high temperature is detected.
