

The Fingercheck Platform

What makes Fingercheck different?

Fingercheck is dedicated to supporting businesses and fueling their independent drive. With our all-in-one approach and ease of use, we streamline payroll and HR operations, allowing our customers to focus on growing their businesses.

A simplified but powerful platform

Payroll with Flexible Options

Lower your costs and cut your time in half with unlimited payroll plus:

Pay On-Demand

Pay your employees now for wages they already have earned.

Next-Day Pay

Run payroll by 6:15 p.m. ET the day before payday if you missed the due date.

Pay Cards

Reloadable pay cards are the alternative to direct deposit and paper checks.

Time Tracking & Attendance

Monitor people and profitability with time-tracking software and time clock technology.

Scheduling & Team Chat

Create and communicate schedules instantly all within one easy-to-use platform.

Time Clocks

Track time with our latest no-contact time clocks that even work with face masks.

Employee Hiring

Make the hiring process more efficient by tracking all applicants, résumés and interviews in one place.

Expense Tracking

Integrates with your employee payroll data to streamline reimbursements and direct deposits.

Employee Onboarding

Give new hires with a simple onboarding process so they can hit the ground running.

Workflows

Automate repeatable business tasks and minimize room for errors while increasing efficiency.

People Management

Automate employee processes to lower costs and save time within one system of record.

Retirement Planning

401(k) Integrations

We partner with leading providers to offer you and your team retirement savings plans.

Insurance

Workers' Comp Insurance

Only pay the premium on actual wages and don't overpay on estimated payroll amounts.

Benefits Administration

Guide your employees through open enrollment and managing their benefits in our user-friendly portal.

It's time to simplify your payroll and HR systems
